Maths Practice (Subtraction)

January 19, 2018

[1] $100 - \square = 75$

[2] $100 - \square = 9$

[3] $100 - \square = 53$

[4] $100 - \square = 64$

[5] $100 - \square = 59$

[6] $100 - \square = 50$

[7] $100 - \square = 4$

[8] $100 - \square = 76$

[9] $100 - \square = 43$

[10] $100 - \square = 31$

[11] $100 - \square = 23$

[12] $100 - \square = 25$

[13] $100 - \square = 38$

[14] $100 - \square = 74$

[15] $100 - \square = 36$

[16] $100 - \square = 48$

[17] $100 - \square = 68$

[18] $100 - \square = 87$

[19] $100 - \square = 29$

[20] $100 - \square = 90$

[21] $100 - \square = 8$

[22] $100 - \square = 65$

[23] $100 - \square = 30$

[24] $100 - \square = 11$

[25] $100 - \square = 20$

[26] $100 - \square = 94$

[27] $100 - \square = 40$

[28] $100 - \square = 16$

[29] $100 - \square = 78$

[30] $100 - \square = 52$

[31] $100 - \square = 60$

[32] $100 - \square = 61$

[33] $100 - \square = 56$

[34] $100 - \square = 5$

[35] $100 - \square = 32$

[36] $100 - \square = 2$

[37] $100 - \square = 98$

[38] $100 - \square = 3$

[39] $100 - \square = 15$

[40] $100 - \square = 37$

Answers

[1] $100 - \boxed{25} = 75$

[2] $100 - \boxed{91} = 9$

[3] $100 - \boxed{47} = 53$

[4] $100 - \boxed{36} = 64$

[5] $100 - \boxed{41} = 59$

[6] $100 - \boxed{50} = 50$

[7] $100 - \boxed{96} = 4$

[8] $100 - \boxed{24} = 76$

[9] $100 - \boxed{57} = 43$

[10] $100 - \boxed{69} = 31$

[11] $100 - \boxed{77} = 23$

[12] $100 - \boxed{75} = 25$

[13] $100 - \boxed{62} = 38$

[14] $100 - \boxed{26} = 74$

[15] $100 - \boxed{64} = 36$

[16] $100 - \boxed{52} = 48$

[17] $100 - \boxed{32} = 68$

[18] $100 - \boxed{13} = 87$

[19] $100 - \boxed{71} = 29$

[20] $100 - \boxed{10} = 90$

[21] $100 - \boxed{92} = 8$

[22] $100 - \boxed{35} = 65$

[23] $100 - \boxed{70} = 30$

[24] $100 - \boxed{89} = 11$

[25] $100 - \boxed{80} = 20$

[26] $100 - \boxed{6} = 94$

[27] $100 - \boxed{60} = 40$

[28] $100 - \boxed{84} = 16$

[29] $100 - \boxed{22} = 78$

[30] $100 - \boxed{48} = 52$

[31] $100 - \boxed{40} = 60$

[32] $100 - \boxed{39} = 61$

[33] $100 - \boxed{44} = 56$

[34] $100 - \boxed{95} = 5$

[35] $100 - \boxed{68} = 32$

[36] $100 - \boxed{98} = 2$

[37] $100 - \boxed{2} = 98$

[38] $100 - \boxed{97} = 3$

[39] $100 - \boxed{85} = 15$

[40] $100 - \boxed{63} = 37$
