Maths Practice (Subtraction)

January 19, 2018

[1] $100 - \square = 27$	[11] $100 - \square = 71$	[21] $100 - \square = 10$	[31] $100 - \square = 83$
[2] $100 - \square = 80$	[12] $100 - \square = 28$	[22] $100 - \square = 8$	[32] $100 - \square = 44$
[3] $100 - \square = 1$	[13] $100 - \square = 46$	[23] $100 - \square = 7$	[33] $100 - \square = 50$
[4] $100 - \square = 56$	[14] $100 - \square = 55$	[24] $100 - \square = 25$	[34] $100 - \square = 65$
[5] $100 - \square = 32$	[15] $100 - \square = 39$	[25] $100 - \square = 43$	[35] $100 - \square = 99$
[6] $100 - \square = 72$	[16] $100 - \square = 38$	[26] $100 - \square = 87$	[36] $100 - \square = 89$
[7] $100 - \square = 92$	[17] $100 - \square = 45$	[27] $100 - \square = 31$	[37] $100 - \square = 24$
[8] $100 - \square = 63$	[18] $100 - \square = 16$	[28] $100 - \square = 98$	[38] $100 - \square = 79$
[9] $100 - \square = 58$	[19] $100 - \square = 41$	[29] $100 - \square = 36$	[39] $100 - \square = 94$
[10] $100 - \square = 29$	[20] $100 - \square = 70$	[30] $100 - \square = 77$	[40] $100 - \square = 12$

Answers

[1] $100 - \boxed{73} = 27$

[2] $100 - \boxed{20} = 80$

[3] $100 - \boxed{99} = 1$

[4] $100 - \boxed{44} = 56$

[5] $100 - \boxed{68} = 32$

[6] $100 - \boxed{28} = 72$

[7] $100 - \boxed{8} = 92$

[8] $100 - \boxed{37} = 63$

[9] $100 - \boxed{42} = 58$

[10] $100 - \boxed{71} = 29$

[11] $100 - \boxed{29} = 71$

[12] $100 - \boxed{72} = 28$

[13] $100 - \boxed{54} = 46$

[14] $100 - \boxed{45} = 55$

[15] $100 - \boxed{61} = 39$

[16] $100 - \boxed{62} = 38$

[17] $100 - \boxed{55} = 45$

[18] $100 - \boxed{84} = 16$

[19] $100 - \boxed{59} = 41$

[20] $100 - \boxed{30} = 70$

[21] $100 - \boxed{90} = 10$

[22] $100 - \boxed{92} = 8$

[23] $100 - \boxed{93} = 7$

[24] $100 - \boxed{75} = 25$

[25] $100 - \boxed{57} = 43$

[26] $100 - \boxed{13} = 87$

[27] $100 - \boxed{69} = 31$

[28] $100 - \boxed{2} = 98$

[29] $100 - \boxed{64} = 36$

[30] $100 - \boxed{23} = 77$

[31] $100 - \boxed{17} = 83$

[32] $100 - \boxed{56} = 44$

[33] $100 - \boxed{50} = 50$

[34] $100 - \boxed{35} = 65$

[35] $100 - \boxed{1} = 99$

[36] $100 - \boxed{11} = 89$

[37] $100 - \boxed{76} = 24$

[38] $100 - \boxed{21} = 79$

[39] $100 - \boxed{6} = 94$

[40] $100 - \boxed{88} = 12$
