Maths Practice (Subtraction)

January 19, 2018

[1] $100 - \square = 20$	[11] $100 - \square = 6$	[21] $100 - \square = 37$	[31] $100 - \square = 19$
[2] $100 - \square = 65$	[12] $100 - \square = 80$	[22] $100 - \square = 35$	[32] $100 - \square = 22$
[3] $100 - \square = 47$	[13] $100 - \square = 84$	[23] $100 - \square = 97$	[33] $100 - \square = 17$
[4] $100 - \square = 76$	[14] $100 - \square = 4$	[24] $100 - \square = 24$	[34] $100 - \square = 49$
[5] $100 - \square = 56$	[15] $100 - \square = 93$	[25] $100 - \square = 3$	[35] $100 - \square = 81$
[6] $100 - \square = 40$	[16] $100 - \square = 14$	[26] $100 - \square = 8$	[36] $100 - \square = 68$
[7] $100 - \square = 44$	[17] $100 - \square = 33$	[27] $100 - \square = 67$	[37] $100 - \square = 21$
[8] $100 - \square = 60$	[18] $100 - \square = 87$	[28] $100 - \square = 99$	[38] $100 - \square = 34$
[9] $100 - \square = 63$	[19] $100 - \square = 27$	[29] $100 - \square = 28$	[39] $100 - \square = 69$
[10] $100 - \square = 36$	[20] $100 - \square = 42$	[30] $100 - \square = 54$	[40] $100 - \square = 18$

Answers

[1] $100 - \boxed{80} = 20$

[2] $100 - \boxed{35} = 65$

[3] $100 - \boxed{53} = 47$

[4] $100 - \boxed{24} = 76$

[5] $100 - \boxed{44} = 56$

[6] $100 - \boxed{60} = 40$

[7] $100 - \boxed{56} = 44$

[8] $100 - \boxed{40} = 60$

[9] $100 - \boxed{37} = 63$

[10] $100 - \boxed{64} = 36$

[11] $100 - \boxed{94} = 6$

[12] $100 - \boxed{20} = 80$

[13] $100 - \boxed{16} = 84$

[14] $100 - \boxed{96} = 4$

[15] $100 - \boxed{7} = 93$

[16] $100 - \boxed{86} = 14$

[17] $100 - \boxed{67} = 33$

[18] $100 - \boxed{13} = 87$

[19] $100 - \boxed{73} = 27$

[20] $100 - \boxed{58} = 42$

[21] $100 - \boxed{63} = 37$

[22] $100 - \boxed{65} = 35$

[23] $100 - \boxed{3} = 97$

[24] $100 - \boxed{76} = 24$

[25] $100 - \boxed{97} = 3$

[26] $100 - \boxed{92} = 8$

[27] $100 - \boxed{33} = 67$

[28] $100 - \boxed{1} = 99$

[29] $100 - \boxed{72} = 28$

[30] $100 - \boxed{46} = 54$

[31] $100 - \boxed{81} = 19$

[32] $100 - \boxed{78} = 22$

[33] $100 - \boxed{83} = 17$

[34] $100 - \boxed{51} = 49$

[35] $100 - \boxed{19} = 81$

[36] $100 - \boxed{32} = 68$

[37] $100 - \boxed{79} = 21$

[38] $100 - \boxed{66} = 34$

[39] $100 - \boxed{31} = 69$

[40] $100 - \boxed{82} = 18$
