Maths Practice (Subtraction)

January 19, 2018

[1] $100 - \square = 76$	[11] $100 - \square = 85$	[21] $100 - \square = 38$	[31] $100 - \square = 48$
[2] $100 - \square = 74$	[12] $100 - \square = 4$	[22] $100 - \square = 75$	[32] $100 - \square = 94$
[3] $100 - \square = 88$	[13] $100 - \square = 29$	[23] $100 - \square = 65$	[33] $100 - \square = 7$
[4] $100 - \square = 53$	[14] $100 - \square = 92$	[24] $100 - \square = 63$	[34] $100 - \square = 61$
[5] $100 - \square = 23$	[15] $100 - \square = 89$	[25] $100 - \square = 40$	[35] $100 - \square = 27$
[6] $100 - \square = 67$	[16] $100 - \square = 86$	[26] $100 - \square = 68$	[36] $100 - \square = 9$
[7] $100 - \square = 28$	[17] $100 - \square = 13$	[27] $100 - \square = 69$	[37] $100 - \square = 10$
[8] $100 - \square = 6$	[18] $100 - \square = 47$	[28] $100 - \square = 60$	[38] $100 - \square = 11$
[9] $100 - \square = 31$	[19] $100 - \square = 72$	[29] $100 - \square = 55$	[39] $100 - \square = 33$
[10] $100 - \square = 70$	[20] $100 - \square = 62$	[30] $100 - \square = 2$	[40] $100 - \square = 90$

Answers

[1] $100 - \boxed{24} = 76$

[2] $100 - \boxed{26} = 74$

[3] $100 - \boxed{12} = 88$

[4] $100 - \boxed{47} = 53$

[5] $100 - \boxed{77} = 23$

[6] $100 - \boxed{33} = 67$

[7] $100 - \boxed{72} = 28$

[8] $100 - \boxed{94} = 6$

[9] $100 - \boxed{69} = 31$

[10] $100 - \boxed{30} = 70$

[11] $100 - \boxed{15} = 85$

[12] $100 - \boxed{96} = 4$

[13] $100 - \boxed{71} = 29$

[14] $100 - \boxed{8} = 92$

[15] $100 - \boxed{11} = 89$

[16] $100 - \boxed{14} = 86$

[17] $100 - \boxed{87} = 13$

[18] $100 - \boxed{53} = 47$

[19] $100 - \boxed{28} = 72$

[20] $100 - \boxed{38} = 62$

[21] $100 - \boxed{62} = 38$

[22] $100 - \boxed{25} = 75$

[23] $100 - \boxed{35} = 65$

[24] $100 - \boxed{37} = 63$

[25] $100 - \boxed{60} = 40$

[26] $100 - \boxed{32} = 68$

[27] $100 - \boxed{31} = 69$

[28] $100 - \boxed{40} = 60$

[29] $100 - \boxed{45} = 55$

[30] $100 - \boxed{98} = 2$

[31] $100 - \boxed{52} = 48$

[32] $100 - \boxed{6} = 94$

[33] $100 - \boxed{93} = 7$

[34] $100 - \boxed{39} = 61$

[35] $100 - \boxed{73} = 27$

[36] $100 - \boxed{91} = 9$

[37] $100 - \boxed{90} = 10$

[38] $100 - \boxed{89} = 11$

[39] $100 - \boxed{67} = 33$

[40] $100 - \boxed{10} = 90$
